CAM TRAN

Cam Tran Co. Ltd. is a full line distribution transformer company, offering manufacturing, repair, remanufacturing and service for 5 through 3000 kVA, in voltage classes of 1.2 kv up to 34.5 kv.

Cam Tran is Certified ISO 9001:2015 and currently maintains a complete library of IEEE - CSA Type Test for all product types/groups.

We strive to focus on long-term, value driven customer partnerships.

Brief History:

- Incorporated in 1982
- Currently – 483 employees, 4 strategic locations
- Head office –Colborne, On - 155,000 sq. ft. on 10 acre lot.
- Fabrication, Paint, Manufacture & Repair for all class & types of oil-filled distribution transformers.
- Certified ISO 9001 since1996
- Chilliwack, BC (1997)– 48,000 sq'
- Spruce Grove AB (2014) – 67,000 sq'
- Sackville, NB (2018) – 50,000 sq'
- Cobourg, ON (2019) – 65,000 sq'
- Engaged in Lean Manufacturing principles since 2010
- To date: over 1 Million units shipped and invoiced
- To date: over 135,000 amorphous core transformers shipped, demand continues to grow.

Head Office - Colborne, Ontario – 4 buildings – 10 acres

Chilliwack, BC

Spruce Grove AB

Sackville, NB

Coil capacity up to 4 mVA

Self Loading Lasers

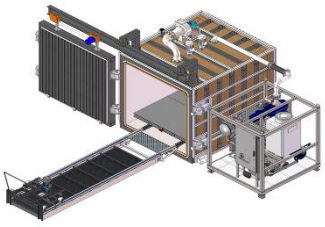
Recent Investments:

- Interactive software provides instant access to all projects, KPI's and critical customer information direct to shop floor.
- State-of-the-art automated surface prep and powder system
- Self loading laser cutting systems
- Fabrication & coating for all product types in both MS and a variety of SS grades.
- State-of-the art winding equipment
- Vacuum Drying Oven for transformer coils
- New integrated software combining electrical & mechanical design into one platform (3D Modeling)

Auto feed powder coat for single-phase pad transformers

Automated Coil Winding

Automated Blast



Vacuum Drying Oven for Transformer Windings
